

## How To Make Your Bookmark!

Reading is fun! Now you can make your very own cool bookmarks to share with your family, friends and teachers! Just gather the materials needed and you're ready to begin. Have fun, be creative and presto--you'll have an awesome bookmark!

*Make sure there's an adult to help you with this project.*

Print out the front and back sides of the bookmark provided below.

Cut out construction paper or cardboard to the size and shape of the bookmarks provided.

Glue the front of the bookmark to one side of the construction paper or cardboard and next glue the back of the bookmark to the other side of the same construction paper or cardboard.

Add your own artistic touch by using colored markers and crayons, and gluing sequins and feathers. Just go wild!

Next, place the contact paper over both sides of your bookmark. Cut it down to the same shape as your bookmark.

Punch a hole with the hole punch on the top center of your bookmark.

Now, thread some yarn through the hole and tie it together.

Congratulations! You made a bookmark!

### Materials Needed:

- Heavy construction paper, index cards or colored cardboard
- Safety Scissors
- Glue
- Laminated Contact Paper
- Markers, crayons, sequins, feathers, etc.
- Yarn
- Hole Punch

Champaign County Animal Control

### **Cold Weather Tips**

Never leave your dog, cat, or any other animal friend alone in a car in very cold weather!

Keep your kitties indoors!

Never let your dog run around off his leash on snow or ice—especially during a snowstorm.

Wipe off your dog's paws, legs, and stomach when he comes in from the snow or ice.

Brrr! If your pooch has very short hair, think about getting him a warm doggie coat or sweater.

If your dog spends lots of time outside playing with you, make sure you and your family gives him plenty of food and water to keep his fur thick and healthy all through the winter.

Snug as a bug! Make sure all of your animal friends have a warm place to sleep.
