

# A Catnip Toy Too

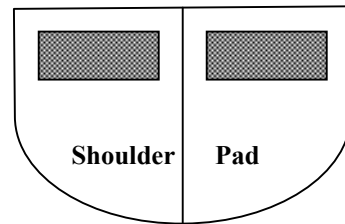

## Supplies

- Shoulder pad
- Velcro
- Catnip
- Non-toxic permanent magic marker
- Needle and thread

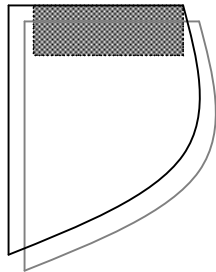

## Let's get started!

Sew Velcro to inside of pad (as indicated). If the pad is very thick, remove some of the stuffing. The cat should be able to smell the catnip.

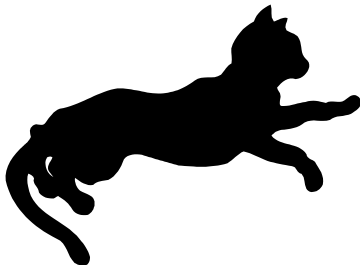

thick,  
smell

Fold shoulder pad in half and sew together the curved edges only (as indicated).

Open Velcro and stuff in one tablespoon of catnip.

Draw a mouse on the shoulder pad or decorate the pad as you wish using non-toxic markers.

**DO NOT** add a fabric or yarn tail. It can be swallowed and become caught in the cat's intestines resulting in a need for surgery.
